SAFETYSCOPE

Public Courses Confined Space

Advanced Confined Space Entrant Course – 8 hour course that will allow an employee to enter a confined space to perform work as needed.

- ◆ Confined Space Entrants training introduces your workers to the hazards, legislation, confined space documentation and personal protective equipment.
- ◆ Workers will learn what to do and what NOT to do during a confined space emergency situation.

Attendant with Non-entry Rescue – 16 hour course

- After completing the theory of confined space legislation, company procedures and unacceptable conditions and their course, participants will focus on evaluation procedures, personnel duties and systems and design an emergency retrieval plan.

Attention will be given to Isolation systems, traffic control and PPE.

- The next day will be consist of practical applications of Gas Detection, Airline Respirators, Communications, Commercial Retrieval Systems, Simulated Confined Space Operations and Simulated Rescue from various types of confined spaces.

These confined space courses are offered monthly at our training centre in Vaughan.

We are also available to train at your location.

Please contact our office for more information 416-231-3752.
