SAFETYSCOPE

ECIS First Aid

Standard First Aid - 2 Day Course

This two-day standard level first-aid and CPR certification course is recognized by the Workplace Safety and Insurance Board as meeting the legislated requirements for employers with more than 5 employees. The objective is to provide participants with the necessary knowledge, skills and training to adequately assess and perform in critical situations.

Maximum of 16 participants. Includes training materials and 13 hours of instruction. Certification is valid for three years.

At that time those holding a ECIS certificate qualifies for a one time recertification which can be met by completing the emergency level 1 day course

Emergency First Aid (Refresher)

This one-day emergency level first-aid and CPR re-certification course is recognized by the Workplace Safety and Insurance Board as meeting the legislated requirements for employers with fewer than 5 employees.

Registrant, for the refresher course, must hold a valid E.C.I.S standard first-aid certificate. This is offered on a one time basis only and is designed to extend, not replace the standard level program. Topics covered include: First Aid law, priorities of Emergency Care and more..

All participants are required to:

- Supply proof of Certification prior to starting the course
- Bring their First Aid Participant Book

This recertification is valid for 3 years and at that time, the participant must begin the process again.
