WHO WE ARE

NATT SAFETY SERVICES

NATT Safety Services has grown to be the largest confined space rescue provider and in-house training facility in Northern Ontario and supplies a wide range of safety training including Working at Heights, Confined Space, Power Elevated Work Platform, Rope Rescue among many others. Industrial training is offered to a diverse range of industries, from Mining, Pulp and Paper, Forestry, Construction, and more.

HIGHWORK

Highwork is a company specializing in the design, supply, installation, certification, training & commissioning of both passive and active engineered fall protection systems as well as post fall rescue & recovery. Their portfolio includes projects from the deepest depths underground to the top of the CN tower, Walt Disney Sound Stages – and everything in between.

COLLABORATION

STRATEGIC ALLIANCE

This strategic alliance represents a significant step forward in the shared mission to redefine safety and excellence in high-risk environments. The collaboration between NATT Safety Services and Highwork will create lasting impacts, setting a new standard for innovation, safety in the workplace, and client satisfaction.

Through this collaboration, NATT Safety Services and Highwork offers the best in training, industrial services, and now design, engineering, and installation of engineered fall protection systems.

Bringing together expert knowledge of safety and fall protection to provide the best available resource of its kind in Canada.
